## ABOUT US

Serving the clients with utmost satisfaction and value since 1979, Rana Metal Works, have been deemed as a prominently recognized manufacturer and trader of Electrical Products. Conceptualized with an ethos to serve a huge clientele our high-quality range of products includes Inverter Cabinet, Stabilizer Cabinet, Wall Mount Cabinet, Line UPS Cabinet, Electric Cabinets, Metal Cabinet, Metal Boxes, Amplifier Cabinet, Battery Charger Cabinets, Laser Cut Jali, Display Racks, Stainless Steel Gates and Outdoor Enclosures. Also, we provide Job Work, Cutting Services, Fabrication Services and Powder Coating Service. We have adapted to the market trends and made our production facility in conformity with industry guidelines. Our products stand high on energy-efficiency, performance, affordability and longevity. The ladder of our success is constructed by the concrete support of our customer. Our repeat orders are the proof of our achievements, quality, performance and our commitments toward the satisfaction of our customers.

Our professionals work in unison under the inspiring guidance of our mentor Mr. Rajesh Rana who has in-depth process knowledge and expertise in this realm. Such strict quality observance and control have helped us the secure trust of multiple customers besides maintaining profitable & enduring relations with the old ones.

## OUR AIM

We are dedicated to innovating and deliver high-quality and world-class Products efficiently on time at the right price to our customers through continual improvement. We are committed to provide the professional and flexible environment to enhance our customer satisfaction while driving to become world class organization.

## OUR TEAM

Trained and skilled team of personnel are hired by us, who acquire the ability to successfully implement our plans. The responsibilities suiting best to their skills and knowledge are assigned so that they may be able to perform well and better results would be generated. Efforts are made by us that led to their individual growth along with the organizational growth. It was their efforts which helped us to attain growth on such a fast pace. The team of our personnel comprises of:

- Technicians
- Engineers
- Packaging & warehousing staff
- Quality controllers
- Administrative staff
- Semi-skilled & skilled personnel
- Availability of research and development staff

## INFRA STRUCTURE

Strategically built and developed, our infrastructure acquires the large area and consists of modern manufacturing unit. Many sophisticated instruments and machines are here which helps to manufacture the goods as per the customers' specifications and fulfilling their requirements in timely and efficient manner. Experienced technocrats and personnel expert involved in the production are there who manage the whole procedure and ensures the right and appropriate activities to be carried out. Facilities available within our premises are as follows:

### CNC Laser Cutting :

If you are in search of flexible and cost effective laser cutting services, the go no further! We provide our valued customers with quality laser cutting services. As an eminent and renowned company offering laser cutting services for our clients, we offer our services with the help of the latest CNC laser cutting and metal laser cutting equipment.

### CNC Hydraulic Bending :

Computer Numerical Control [CNC] is one of the most interesting engineering techniques that guarantee higher level of repeatability and productivity. We use machines that can fabricate high environment sheet metal, which can further be used for the purpose of panel boxes, Stabilizers & various other sheet metal cabinets. This allows design flexibility as well as dimensional accuracy.

### Welding [TIG/MIG] :

RANA METAL WORKS is a leading and foremost TIG and MIG welding company that are dedicated to providing a full spectrum of quality TIG and MIG welding services. Working closely with our clients from a wide variety of welding services, we are now poised to provide core TIG and MIG welding services.

Our skilled welders are capable of providing manual welding services for mild steel as well as stainless steel fabrications.

Our MIG welding techniques offer high productivity along with minimal clean up. We can also provide long weld services without interruption. and are also capable of welding sheet metals in all possible positions. Some of the superior features of our TIG welding techniques include spatter free work, superior welding, as well as less distortion.

### Powder Coating [with pretreatment 7 tank process] :

At RANA METAL WORKS, we deploy our own powder coating formula to bring out the finest finish in each and every product. Being a reputed powder coating company, we have always emphasized on the use of the finest quality of powder that can give the shine and lustre to the final product ready to be delivered. We always make it a point to give you the perfect finish.

Each and every part of sheet metal products are processed through 7 tank consisting of high temperature phosphate solution, which ensures a clean as well as etched part. Each part is also equally baked so as to remove strains of moisture. After all, moisture can hinder the final finish of the product. So, when you choose our powder coating services, you have simply chosen the best. Our team of expert powder coating specialists can coat the parts with a dry finishing process in which finely ground particles of resins and pigments are

## OUR PRODUCTS

## WHY CHOOSE US ?

Our name has been counted among one of the well established and renowned manufacturers and trade. A wide range of Stabilizer Cabinets & panel boxes is supplied by us, with the help of vast network and well-trained marketing and sales executives. Salient features of our firm are as follows:

- Well furnished & equipped infrastructure
- Premium quality products
- Effective measures of quality control
- Outstanding designs
- Ethnic business policies
- Customized solutions
- Reasonable prices
- Timely deliveries
- Experienced staff
